## Dedication of Parcourse set

ALBANY — The Fiftieth Anniversary of the Albany Rotary Club will also mark the dedication of the Club's gift to Albany, the two mile Parcourse, set out in the linear park under the BART right of way. Jerome Blank, Albany realtor and a member of the Rotary Club, is slated to be master of ceremonies for the event.

With a full program of events slated to begin at 11 a.m. at the first station, near the corner of Masonic and Washington avenues, the two mile jogging and walking course is complete with 18 exercise stations to test the abilities of those wishing to use the facilities. There are three levels of exercise at each of the stations, to be used according to the person's ability as a beginner, and intermediate or an advanced athlete.

The course, from Brighton Avenue to the north to Codornices Creek to the south, is designed to provide warm-up, stretching, muscle strengthening, cardiovascular conditioning and cool-down. The stations are arranged so the individual starts out slowly, builds to a peak and then gradually slows down to normalcy.

The Parcourse is to be presented to the City of Albany at the ceremonies Saturday. It is the 50th Anniversary of the Albany Rotary Club and the course is a gift from the club to the City in commemoration of the event. In addition to the materials, Albany Rotarians provided the labor to install the signs and equipment, aided by Bud Rooney, head of Albany Park and Recreation Department, and members of his department.

An open invitation has

been issued to all department heads, the members of the Albany Unified School District Board of Education, Mayor Robert Luoma and members of the Albany City Council, to participate in the dedication and to test the course. They are asked to show up for the ceremonies in jogging outfits. Music for the event is to be provided by the Albany High School Tuesday Jazz Band under the direction of Brett Mifflin. It was said.

President of the Albany Rotary Club, J.J. Spurrier, said the Parcourse was constructed under the direction of a committee composed of Craig Lacy, Bob Carlson and Harold Denham, with assistance from Jim Simmons, who with Lacy, was in charge of the actual construction.

The public is invited to the ceremonies.

NUMBER 35

## Albany, Mayor police all named by union in suit

ALBANY — A suit has been filed in Alameda Superior Court asking Mayor Robert Luoma, the Albany City Council, Albany Police Department and Albany Chief of Police James Simmons to stop policing the strike at Golden Gate Fields.

The suit, filed last Wednesday by the Alameda County Central Labor Council and Service Employees International Union, Local 280, wants the Albany Police department to stop "acting as private parking lot attendants for Tanforan Racing Association in and about Golden Gate Fields in Albany, California."

The suit, filed by Attorney William Sokol of the firm of Van Bourg, Allen, Weinberg & Roger in San Francisco, said the Albany police have "been directing cars, helping cars get parked, and moving in and about the parking lots and areas surrounding the parking lots of Golden Gate Fields in the same manner and doing the same work as the parking lot attendants at Golden Gate Fields."

The suit charges that while acting as "private parking lot attendants" the men are "at all times... Albany City Police employed by the City of Albany and are being paid by the City of Albany with public funds, despite the fact they are engaged in private employment."

The suit charges that "using public funds to pay Albany City Police... in and about the parking lot and the area surrounding the parking lot at Golden Gate Fields... is an arbitrary, capricious and unauthorized waste of public funds."

The suit goes on to ask the Police be enjoined from acting "as parking lot attendants for Tanforan Racing Association" and those named in the suit, namely Mayor Luoma, the City Council, the Albany Police Department and Chief Simmons repay the City the costs of the police and that the same group pay the Union and the Labor Council costs and attorneys fees.

The strike is the outgrowth of the installation of computerized pari mutuel betting machines at Hollywood Park race track in Southern California. The Unions charge the installation of the machines, scheduled for next year at Golden Gate Fields, will put a great many clerks out of jobs. They have requested a management meeting with demands for an increase in salaries, new working conditions and the guarantee against layoffs when the new machines are installed.

Meetings have been held and some of the issues have

## CS board in short meeting

ALBANY — The regular meeting of the Albany Civil Service Board was short, in both time and members of the board. Chairman Jerry Corniola was out of the city on business and member Robert Taylor was ill.

The remaining three members, Thelma Rubin, Thomas McQuaid and Vice-Chairman Ed Howe, went through the agenda in short order.

The main topic of discussion was the possible hiring of a new secretary for the board prior to the next meeting. There have been nine applicants for the part time position, six of whom have been interviewed by the board members last Thursday, with the remaining four to be interviewed tomorrow night.

The successful applicant will be chosen on his or her ability to deal with the commission; ability to speak and answer questions clearly; be able to type; understand and answer intelligently questions on the telephone and to interpret the rules of the board.

The applicants interviewed Thursday were Margaret M. Giddings, Mary Jo Nakazono, Norma DePianto, Adrienne Orr and Frank Murdock. Tomorrow night, Lola Carli, Angela Knuckles, Douglas Morimer and Carl Ito are scheduled to be interviewed by the board members.

In other business, the board set the rate of pay for proctors for the agility test for the police officer and authorized the rental of a "dummy" to be used in the tests. The tests were set for last Saturday but were postponed because of the rain. It was said. Another date will be fixed as soon as possible and all 57 candidates will be notified. It was announced. The fee for the proctors was set, on a motion by board member McQuaid, at \$7.45 per hour. Seconded by board member Rubin, the motion carried.

The 1979-80 budget for the board is \$9,178, a reduction from the 1978-79 budget of \$12,743, according to William E. Haden, city administrator. The board actually spent only \$8,411 in the year, it was announced. The major part of the new budget is for examinations for eligibility lists for police and fire departments. Five tests are on the schedule at \$500 each, it was said. The other major expenditure is for the part-time secretary who is to be paid at the rate of \$4.50 per hour with the additional cost of federal and state taxes.

## L.L. scoreboard dedicated to memory of Phil

ALBANY — At recent dedication ceremonies, the new electronic scoreboard at the Little League diamond was lighted for the first time, according to an announcement by Fern Luoma, publicity chairman of the Albany Little League. Erected by the local Little League, the scoreboard was dedicated to the memory of Don Phil, one of the founders of Albany Little League. The ceremonies were attended by his wife, Mrs. Evelyn Phil, and her two sons.

Co-incidental with the dedication, President Larry Eaton said he has appointed Bob Cox, second year manager of the Orioles team, as Minor League representative. Cox' son, Robbie, is a player with the Cardinals of the minor league.

## Pierce Street work session council talk

ALBANY — The work session on the Pierce Street widening project Monday night by the city council brought out a large amount of discussion, both pro and con.

The proposal is to widen Pierce Street between Buchanan and the vacant property adjoining the Gateview project, underground the utilities and require the installation of signals at the intersection of Pierce and Buchanan. The project has been estimated to cost some \$551,340, according to Robert Guletz, director of Public Works. He also said the money for the work is available, but there is the necessity of obtaining the approval of residents of the 700, 800 and 900 blocks of Pierce prior to construction. At the council meeting he asked for the setting of a public hearing to go over the proposed reconstruction.

## School's restrooms a mess

ALBANY — In the current issue of the Albany High School "Informer," a story under the by-line of Cathy Chew outlines vandalism in the bathrooms of the school.

According to the story, Larry Eaton, head custodian of the school, said the vandalism in the girls' restrooms is worse than he has seen it for many years. He stated, in the story, that the cause, in his estimation, is the fact the restrooms are not being patrolled as they have in the past. He said the girls' restroom on the main floor seems to be the target of the worst of the vandalism. He also said that the school has spent \$170 for 18 soap dispensers, all of which have been torn down. He also said he has replaced nine toilet paper dispensers.

Eaton said, when asked about the use of the excessive amount of paper, that the girls just make "stacks of it. They throw it on the floor."

The walls of the restroom are covered with graffiti and cigarette burns, he said. Eaton also said he believes the destruction in the rooms is a result of boredom stemming from the strict detention and attendance policies of the school. In the story, Mrs. Chew said James Walker, principal of Albany High School, has requested funds for a campus security aide, but the request has been turned down because of the slash in school funds as a result of Proposition 13. Last year, the high school had attendance personnel checking the restrooms, which are the school's worst areas for vandalism.

The fact students don't want to use the designated smoking areas, outside of the buildings at Key Route and Portland and Key Route and Thousand Oaks, is believed due to the risk of having parents or neighbors observe them smoking.

When Walker was contacted, he said the restroom that is the target of the vandalism is on the first floor, centrally located and is open from 7:30 a.m. until 10 p.m., daily.

He admitted that there has been a problem in this particular restroom and said it is just one of six located in the High School. He also said that recent patrolling of the restrooms has resulted in better conditions and the vandalism seems to be on the wane.

The first floor restroom that is the one most open to the public can be entered by anyone off the street. Walker said, whether a student, parent or a casual passerby.

After many residents had voiced opinions, O. R. Karst, 910 Pierce St., a contractor, came up with an idea of closing off or shutting down a major part of the Pierce Street off-ramp and on-ramp from Highway 1-80 and construct a new on and off ramp that would connect into Buchanan Avenue. He said the closure of Pierce off-ramp would relieve the congestion, act as a panacea for the residents of the affected properties and save the city money. His proposal was to connect Buchanan to I-80 and abandon the on-ramp to I-80 at Pierce. A 31 year resident of Pierce Street, he also is against the installation of signal lights at the intersection.

The request, voiced several meetings ago by Dario Meniketti, that an ombudsman be appointed to work with the aged in "nursing homes, convalescent homes and homes for the aged" by appointed was met with opposition by the council and Catherine Webb in particular. Mrs. Webb, secretary of the Committee on Aging for Albany, said a motion was passed by her group to the effect there is no need for the plan as outlined by Meniketti and is not needed until such time as there are nursing homes in Albany.

Councilwoman Joyce Jackson asked Meniketti to obtain more information and to report back to the council when he had more facts to back his request. Meniketti said there is "lack of concern for the elderly by the Committee on Aging." Thomas McQuaid, a member of the committee, asked City Attorney Zweben if there is a distinction in the naming of the homes for the aged and was told there is a distinct difference in "nursing homes, convalescent homes and homes for the aged." The discussion came to an end when Mayor Robert Luoma requested Meniketti to come back with facts to substantiate his request.

The \$50 fee asked of former City Councilman Patrick Griffin for his campaign statement in the recent election was brought to the attention of the council by Zweben who said Griffin told him he was not obligated to pay the fee as his name had been removed

## Comments BY CARY

The strike of Golden Gate Fields by the Service Employees International Union, Locals No. 280 and 399, has cost the City of Albany many thousands of dollars in revenue, overtime pay for police officers and the bother of having pickets blanket both the

City Hall and the home of Mayor Robert Luoma.

Since its inception in early April, April, to be exact, the strike has cost Albany approximately \$1500 to \$3500 per day. When the track closed down on the final days of the regular meeting, the closure cost Albany from \$3500 to \$3750 per day. When the Tanforan section of the meet started on April 19 and the active pickets appeared on the scene, it has cost the City some \$1500 or more per day on the average. That is just in lost revenue from the admission tax. On top of that there is the overtime pay for the police officers assigned to the track. That amounts to some \$15,000 to \$20,000 per week in lost revenue and overtime payments, according to an estimate by William E. Haden, City Administrator.

Now comes the suit of the Service Employees Local 280 against the City, Mayor Luoma, the Albany City Council, the Albany Police Department and Chief James E. Simmons.

The suit asks that the City, the Police Department and all other persons be enjoined from "acting as parking lot attendants for the Tanforan Racing Association of Golden Gate Fields while they are on duty as Albany City Police."

The injunction also asks that the judge who hears the injunction suit award the City all the money that has been paid out "as wages and salaries to Albany City Police acting as private employee parking lot attendants in and around Golden Gate Fields during April, 1979."

It is believed that the suit will just inflame the rancor of both the pickets and the police and will result in even more trouble at the race track. Since the strike began, there have been some 20 arrests of both pickets and patrons. There have been several instances

## CLUB ACTIVITIES

### BERKELEY POTTERS GUILD

The Berkeley Potters Guild will hold their annual Spring Sale Saturday and Sunday, May 12 and 13, at the Guild's warehouse-studio complex, 731 Jones Street, Berkeley.

The sale by the non-profit organization will feature

of violence that resulted in injuries to police, patrons and pickets.

Chief Simmons has been the object of insults and injustices at the hands of the labor leaders. In fact, some of the remarks as to his behavior and ancestry could be taken as personal attacks and cause even more trouble for both sides.

The question of where the money is to come from to pay off, in the end, the cost of the strike is still moot. Councilwoman Joyce Jackson is of the opinion the money should come from Golden Gate Fields. There has been no promise of reimbursement by the track for the money spent on policing the track. On the other hand, there has been no promise of money from the Unions involved over the fact there have been many a flat tire, marred paint and damaged car exteriors. The Unions have not said they are going to make good the damages caused by their cohorts, many of whom do not belong to the two unions involved. Unfortunately, a strike always brings out the worst elements; those who are looking for an excuse to get into a fight. One of the arrests at the track was of a woman who bit a police officer. Needless to say, she ended up in the Albany City Jail. Another man was charged with running down one of the Albany policemen. An elderly person, he became alarmed over the actions of the pickets and police and inadvertently stepped on the gas pedal instead of the brake. None of these actions did anything to enrage the strike to the citizens of Albany.

It is the hope of City officials the track, the unions and the racing fraternity will get together and settle the argument as soon as possible. With Prop. 13 hitting Albany hard, it seems a shame money from the track should be cut out, too.

**ENTERTAINERS** — Two of the acts to be presented at the San Francisco Theatrical Club show Saturday night at Herbst Theatre in San Francisco, will showcase Evelyn and Raymond Zurluh of Berkeley and Dolores Barrios of Albany. In addition, Noble Curll, another old time vaudeville performer, will be on stage during the revival of the stage and vaudeville acts of former

years. The show, in the old Veterans Memorial building in San Francisco's Civic Center, begins at 7 p.m., and there are no reserved seats, according to an announcement by Zurluh. Mrs. Zurluh is a well known dancing teacher of the area and had a great many Albany children as pupils in the heyday of her school. A donation of \$4.75 per person is asked.

**Dear Friends** — How nice it is to be in our new office! We want to thank those of you who've dropped by with flowers and champagne — one client even sent us some champagne glasses to go with it.

We are happy to let people know that the fishing trip to Cabo San Lucas June 3 has openings left for 5 people. There are twenty-five people signed up now — married couples, single men and women — we met most of them last February on our last trip and a more congenial group is hard to imagine. The cost for airfare San Francisco/Cabo/ Nights Hotel is \$305.00. Let us know no later than Friday May 11. Call us at 428-1660. Mr. Marc Bassie will be escorting the group and arranging rentals of fishing boats. You can take a cooler on the plane with you and the staff of the Finesterra Hotel will cut up fish you've caught each night and pack it in ice for your trip home. In the meanwhile, after you arrive, you might fill up the cooler with ice and have beer.

I personally am not too interested in fishing and spent most of my time sitting by the swimming pool talking to a lady from Denver. We went out in a small boat (two of us) one day and floated around the rocks watching albatross, pelicans and seals sunning themselves. In the evenings you can try the cuisine of the various hotels, you can sit on the gorgeous verandah of the hotel watching the sun go down and drinking the world's worst margaritas. I couldn't believe that in Mexico, surrounded by marvelous food, fish, fruits — that the drinks could be so horrible. But they have a happy hour and serve big glasses full of

## TRAVEL

Tequila and whatever. One night I switched to bloody Marys and they were just as bad. Anyhow, after one of them, who cares. There is nothing so lovely as a warm evening watching the sun go down, watching whales bob in the water, listening to mariachi music — and knowing that somewhere somebody else was having to worry about cleaning up.

If you like, you can fly or drive over to La Paz. One night five people went to a crazy nightclub called "Alphonso's" that is located in Cabo in an old house trailer. Two or three people in the group just spent all their time on the beach reading for the whole trip. So if you're feeling like joining someone for a meal, fine — if not, you're on your own.

We see no sign of the United Airlines strike breaking yet. All sorts of rumors fly around, and meanwhile, it makes the whole domestic travel scene very crowded — travel to Hawaii is especially difficult.

If you are thinking of floating down a river this summer, better move fast. One tour operator tells us that the Colorado River is sold out through 1980. We think there are many fine trips down other rivers in the Southwest — even lovelier and with fewer people.

Well, friends, we hope to have an opening party as soon as we get ourselves organized — the way things are going that might be August! Very best wishes.

### Athlete of The Week

ALBANY — Athlete of the week is David Ford, son of Mr. and Mrs. Henry Ford, 1077 Piralta.

A senior at Albany High School, David is a star baseball and football player and is one of the mainstays of the current Cougar baseball team. An avid reader, he also is interested in all phases of sports.

According to his coach, Phil Wanlin, "David has been a very dependable player for the last two years as a member of the Varsity squad. This week he hit a free run homer which provided the winning margin over Harry Ellis High School, the first place team in the league."

David is planning on attending Hayward State University upon his graduation. His future plans for sports is not firm as yet, it was said.

## LET'S GO Fishing!

By CAPT. DAVE KINLEY

Hi, folks!

The weather, plus gasoline, put the damper on both spirits and fishing. Reports of small bass are still good around Pt. Isabelle and the Albany dump for those hearty fishermen who stick it out despite the southerly winds and chop.

Sturgeon reports are good along the Rodeo and Pinole flats and down to Buoy 4 with flounders and stripers filling in to help with the action.

Due to the gasoline shortage, the local areas are getting more play and are producing. The local reservoirs have recent heavy plants of trout and the catching is good.

Ocean salmon has been good with quite a few limits over the week-end to 26 pounds, but you have to be a hearty soul because of the weather. Most ocean fishermen who are not

"regulars" do not know the weather on shore has practically nothing to do with the weather off-shore. It can be in the 80's in shore and in the mid 50's outside. Always wear plenty of warm clothes and even take along foul weather gear no matter what the weather looks like or what the forecast is. I've seen many a trip spoiled because of not being prepared for the weather.

Recently I became acquainted with Gene Kelley, an avid fisherman, and, I think, a great cartoonist. He gave me approval to submit some for your approval and I hope you enjoy them as much as I do. Gene is an Albany resident and his art is on display in our shop and store.

Good fishing and I hope you find a full gas tank at the end of your line.

See you next week.  
CAPT. DAVE KINLEY

## Gherlone Jog-a-thon Valente at Cougar Filed Sat.

By PHIL ALSTON

Mark Valente shot 663 and Bob Gherlone 640. D & M Body Shop placed second half honors (the 870 Commercial) at Albany Bowl by placing Blair Excavators the last two games of the season for a 19 to 6 decision. The D & M victory set the stage for a re-match between the same two teams in the league championship. Blair Excavators won the first half.

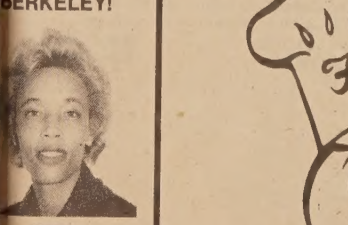

The night began inauspiciously for D & M when Blair's won the first set 864-855, but from that point on the Body Shoppers were awesome. They rolled team totals of 1027 and in winning each of the individual matches in the two games.

Valente dropped the Ex-actors into third place and Kalalekawila, 16-9 over Mary & Joe's. Valente built his series on sets of 202-235-226 and alone contributed a 256 at the finish.

OT, Inc. defeated Wilson 3-0 in a playoff. The Ladies Scratch title. Donna Mathews, who tied with 227 game, led up top money in the league sweepstakes with hand-total of 633.

Two winning sweepstakes Irene Heinsteins with Wednesday Amers and Souza, 635 in World.

The closing week of league play saw Jordan pace the play Swingers with 600. Chester Blackmon 236 game and 588 to Thursday Sleepers. Arnold at 579 for 184 and John Walton 576 in Graphic Arts League.

## MAIL BAG

Editor: Dear Sir:

A White House Conference is scheduled to be held in Washington later this year to consider the needs of the nation's libraries. Eleven hundred delegates will be attending from every state in the country, including ours. This is a grand opportunity to focus attention on the importance of helping our public libraries provide even better services and obtain a fairer share of financial support from the State and Federal governments.

The public library is vital to strong community life. It is a good friend to the house-ridden and the elderly, to adults who are continuing their education, school children doing independent research and to the very young. In short, to all of us.

Help us get the word to the Governor and to our State and Federal legislators to prevent budget cuts and service reductions that have crippled public libraries in other parts of the country.

Sincerely yours,  
BENNY TJOA

## Potluck supper Tuesday

ALBANY — On May 15, the Advisory Committee on Special Education in Albany will host a potluck supper at Cornell School cafeteria at 6:30 p.m. The community is invited, especially all parents with children who have special educational needs.  
 The Advisory Committee is a group of parents, community members, educators and administrators who support parents of all "special needs kids" in Albany. Through review of existing programs, research of alternatives of traditional methods in special education and identification of resources available to parents, the committee seeks to enable and encourage parents to function as competent advocates for their children's education. Rap groups of all interested parents will be organized and announced soon.  
 The committee was formed because of the present interest in special education evolving from the passage of PL94-142. Also known as the Education of All Handicapped Children Act of 1975. PL94-142 was designed to provide all handicapped children with free and appropriate public education. If you are the parent of a child who is hard of hearing, deaf, blind, visually handicapped, impaired speech, seriously emotionally disturbed, orthopedically impaired, deaf, blind, mentally retarded, multi-handicapped or having specific learning disabilities, you are affected by this law. It protects the rights of these children and their parents. It provides financial assistance to states for the education of these children. PL94-142 is also designed to assess and assure the effectiveness of efforts to educate all handicapped children.  
 Parents and residents of Albany who are interested in assuring quality special education locally are urged to attend the May potluck. There will be a film presentation and discussion following. Please bring a main dish or salad and your own utensils; child care will be provided. Call 665-3165 daytimes or 654-8815 evenings to make your reservation.

 from the ballot, hence he was relieved of the obligation.  
 Reorganization of the finance department was discussed with the result Virginia Chambers is now appointed to permanent status as Account Clerk I at a salary of \$947 per month and Jane Newton, a nine year employee of the department, be appointed Account Clerk II at a salary of \$988 per month. Both appointments become effective May 16.  
 The letter from Rev. Robert Vogt, chairperson on the Alameda County Commission on Aging was read that charges the Senior Center, not opened nor completed on the new construction as yet, "is not adequately furnished nor supplied nor properly staffed."  
 Mrs. Webb said the request for the funds had been made by Jean Kramer.  
 "Jean Kramer is the one who requested funds for a professional director for the Senior Center," Mrs. Webb said. "The basis for the whole matter is a personal vendetta. She said there should be a professional director for the new center. That I agree, we do need a competent, experienced director to stop this nonsense. We should not involve so many people when the city is involved, particularly when it is a personal vendetta."  
 She did not explain who is involved in the vendetta with Kramer.  
 The city council and the staff of Alta Bates Hospital are to meet in work session set for 7:30 on next Monday.

**SUIT**  
 (Continued from Page 1)  
 California is losing money from its part of the take, and the track is losing money because of the reduced gate and betting figures. The horsemen at the track are suffering as there is no incentive for the better horses to race at the track and the purses, correspondingly, are not up to their usual amounts. The consensus is the strike is hurting everyone, from the men on strike, from lost wages, to the police of Albany who are working overtime.  
 Police Chief Simmons said, when asked about the charges as set forth by the unions in their suit, that "the police were just doing their duty. We are, and will continue to, maintain law and order in the City of Albany, the charges, in my opinion, are unfounded."  
 On Monday, a tentative agreement for the settlement of the strike was arrived at between Local 280, who had filed the injunction, and the race track management. The agreement came after around-the-clock negotiations in Southern California and the package is to be submitted to the union for ratification.

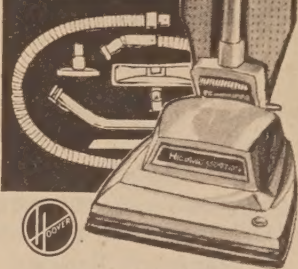

The only cloud on the complete reopening of the track hinges on whether or not the other union, Local 395, also will come to terms with track management.  
 Cliff Goodrich, general manager of Golden Gate Fields, who has been attending the day and night sessions in Southern Gate Fields.  
 California, said he has hopes that the remaining five weeks of racing at the local track will not get into full swing.  
 As of press time, Local 395 had not signed and pickets were in evidence at the Buchanan and Gillman Street entrances to Golden Gate Fields.

## LET'S TALK IT OVER

with **Odd E. Haugen**  
 anyone wants to save as much money as possible in a basic human trait. So buyers and sellers of real estate may get the idea that can save by buying or selling property direct, without services of a real estate commission. They want to avoid pay a commission.  
 But can be a big mistake. Let us expect us to take this action because we live on commissions. But, check with big land investors. They are that in face-to-face deals between buyer and seller. Selling may be said that one party so angry that becomes unreasonable the deal falls through. Experienced buyers insist on a between and usually do expect the other party until the deal is complete.  
 professional agents, we have you far more than commission by helping avoid costly mistakes and disappointments. Let us show you we do this. Can we "Talk It Over"?

### Census to ask about workers

ALBANY — How many American workers are holding more than one job? How many are working overtime and what is their overtime pay? What are

workers' usual hours on their jobs? John E. Tharaldson, Director of the Census Bureau's Regional Office in Seattle, announced today that information in response to these questions will be collected during the week of May 14-18, 1979, from a sample of households in this area. The questions are in addition to those usually asked in the monthly survey on

employment and unemployment conducted nationwide by the Bureau for the U.S. Department of Labor. Households in this area are part of the sample of 76,000 across the country scientifically selected to represent a cross section of all U.S. households. Results of this monthly survey provide a continuing measure of economic conditions in the nation. The

March survey indicated that of the 102.7 million men and women in the civilian labor force, 96.8 million were employed. The nation's unemployment rate was 5.7 percent; it has been in the 5.7 to 5.9 percent range for the past 8 months. Information supplied by individuals participating in the survey is kept strictly confidential by law and results are used only to compile statistical totals.
